

Different Races • Many Beliefs • One Nation

Take a look around

Different races different crowds

In harmony

Care for one another

We're all sisters and brothers

a way we could live

The world will never wait

For us to cooperate

A vision we see

Knowing from where you come

Maybe different but we're one

Love that we give and receive

Race and religious harmony

It starts from you and me

Right now

Race and religious harmony

It starts from you and me

Right now

Chorus

We're gonna make it together

Respect for one another

Many values we hold so strong

Whatever comes our way

You know we're here to stay

As we walk into the new dawn

Chorus

We're gonna make it together

Respect for one another

Many values we hold so strong

Whatever comes our way

You know we're here to stay

As we walk into the new dawn
